Comparison with the preceding year corresponding quarter

The Group's revenue recorded a decrease of 47% in the current quarter ("Q1FY23") as compared to the preceding year corresponding quarter ("Q1FY22") due to cautious capital expenditure spending from customers which foresee a slowdown in semiconductor industry and deferment of delivery for the quarter under review due to slowdown in customers' expansion pace.

R&D expenses have increased due to more R&D resources are deployed in the research activities for new product development purposes.

Other expenses have increased RM1.93 million as compared to Q1FY22 mainly due to the strengthening of Ringgit against USD and RMB in this quarter.

Finance cost increased mainly attributed to the drawdown of trade line facilities for working capital purpose.

The Group recorded a loss of RM4.77 million in Q1FY23 mainly attributable to the lower revenue as explained in B1.

B3. Prospects

The prospects for the coming quarters are consistent with our statements in Q4'22.

Generally, the capital spending by our customers have reduced significantly and the market is expected to take a breather for a period of between three to six months. In view of that, our cash flow control and management which we highlighted last quarter have delivered positive results. We have reduced our inventory and we expect to reduce it further next quarter.

The Group shall crank up business development activities in automotive market in the coming quarters. We observed delays in customer projects but the overall business landscape remains positive.

The PC market has declined in the start of 2023, we are still hopeful that the network processor segment which contributes to our enterprise storage market shall be able to grow further, if not holding its current demand position. Smartphone/Tablet market has declined sharply and shall continue to do so in the next few quarters. This may give short term impact to us but we expect a recovery within 3 to 6 months. The easing in traveling and quarantine restrictions in China shall help in such recovery.

The Group is braving through the global uncertainties both economically and geopolitically. In short, the fundamentals of the Group remain good in terms of bookings, products and financial.

A brand-new start of the year for Aemulus kicks in. It's INTI University's CU Convocation again in which Industry Awards will be given out to the best performing students of the university. Just as Aemulus did last year, we made a sponsorship of RM1,000 for the Industry Award again.

During the season of giving month in December 2022, we put together an in-house Christmas event for our staff. It was a three-weeks long event in which we had Christmas donation (in monetary / gifts form) booth up, recycling drive, fun games on our event day for our staff. A homemade cookie-selling booth by the single mothers of Together Moms Centre was setup as well.
